2026 MASTER CORPORATE BROCHURE • VER 03

*SC — SISTAR COMPANY: The Groundwork Is Complete

A Quantum-Inspired Autonomous Business Engine and Global AI Commerce Constellation. Compressing 30 years of corporate output into a 10-year execution horizon through AI agent orchestration, serverless cloud infrastructure, and zero-inventory capital mechanics: **"Let AI Work for AI."**

12

Semantic Web Domains

Fully deployed and active on Cloudflare Global Edge with embedded Schema.org JSON-LD.

5

Micro-Frontend Nodes

Serverless cloud architecture in production powering autonomous commerce.

24/7

Autonomous AI Pipelines

Continuous overnight data scraping, RAG verification, and agentic orchestration.

8

International Bases

Active operational footprint spanning Korea, Indonesia, Singapore, USA, Vietnam, India, China, and Japan.

Executive Identity — Why *sc, Why Now?

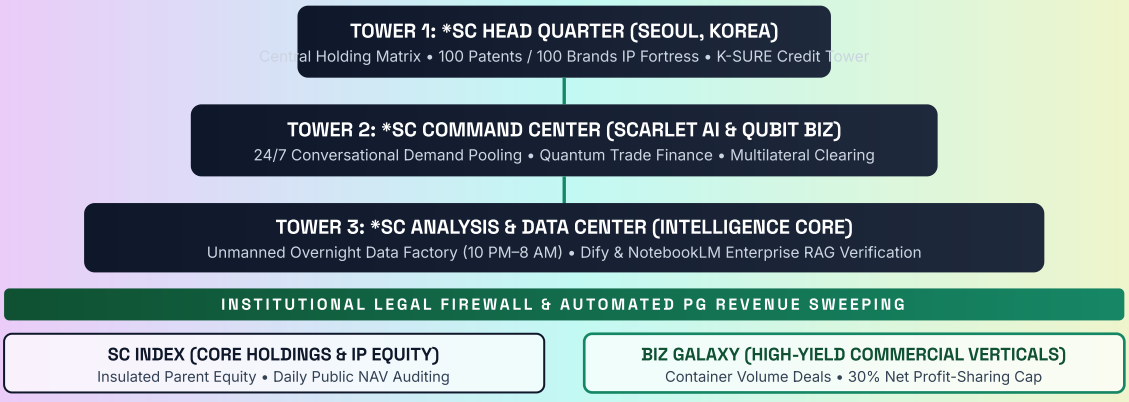

Forged from 30 years of hands-on international trading mastery and 50 years of partner formulation heritage, *sc is not an early-stage concept seeking seed capital to test unverified hypotheses. Our entire foundational infrastructure is fully built and active.

Dimension	Traditional Linear Enterprise	*sc One-Man Unicorn Infrastructure
Capital Expenditure & Overhead	**High Capex:** Heavy upfront capital locked in physical facilities and fixed equipment.	**Near-$0 Fixed Overhead:** Serverless cloud infrastructure replaces heavy physical operations.
Inventory & Working Capital	**Dead Inventory & Temporal Lag:** Capital locked in unsold stock and 60-to-90-day settlement cycles.	**Quantum Tunneling & Simultaneous Profit:** Verified buyer demand pooled first; multi-party execution at $t = 0$.
Human Resources & Operations	**Bloated Headcount:** Linearly growing fixed payroll costs with every new hire and country node.	**24/7 Autonomous AI + 30% Profit-Sharing Cloud:** AI agents and Intelligence on Tap specialists scale with zero fixed payroll drag.

CORPORATE GOVERNANCE & RISK ARCHITECTURE

Triple Control Tower Governance & Institutional Risk Firewall

Core holdings and IP equity (**SC Index**) are strictly separated from high-yield vertical commercial projects (**Biz Galaxy**) via an institutional Legal Firewall, insulating the parent organization and investors from external fulfillment liabilities.

Dual-Track Investment Firewall

Core holdings and IP equity (SC Index) are strictly separated from high-yield commercial projects (Biz Galaxy), legally insulating investors from external fulfillment liabilities.

Automated PG Sweeping & Zero Default Risk

Our Qubit Open Account protocol captures end-user checkouts at the Payment Gateway (PG) level via `payment.success` webhooks, automatically splitting COGS, logistics fees, and net margins in real time.

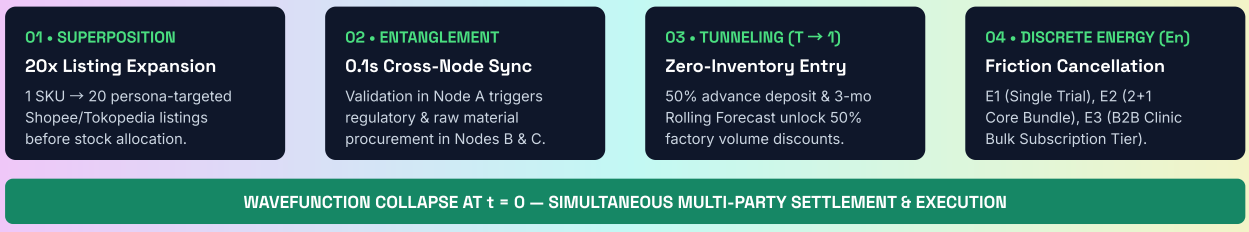

Daily Public NAV & Console Auditing

Every project runs on standardized Google Workspace ledgers (Console, Monthly Sales, Dashboard), calculating real-time Net Asset Value (NAV) and enforcing a strict 30% net profit-sharing cap.

THE PROPULSION ENGINE • QUBIT ALGORITHM™

Turning Quantum Field Theory into High-Velocity Commercial Mechanics

The Qubit Algorithm™ eliminates temporal lag, inventory risk, and platform fee friction through four mathematical mechanics culminating in simultaneous Wavefunction Collapse at $t = 0$.

COSMO SEED™ • 5 AUTONOMOUS ENGINES & QUBIT BANKS

Five Core Engines & Four-Way Cashless Debt Extinction

The COSMO SEED™ ecosystem unites five autonomous commercial engines around the **Qubit Bank 4-Way Offsetting Ledger** — connecting physical goods suppliers, IP owners, IT/AI solution providers, and warehouse operators via Time Bank, Space Bank, Idea Bank, and Petfood Bank credits.

Engine 01

Qubit Factory™

24/7 micro-SaaS and web replication factory auto-reskinning validated codebases into 100+ localized brand portals (+10 project developments/day).

Engine 02

Qubit Commerce™

Zero-inventory programmatic commerce engine mining viral signals, generating 10+ shoppable videos daily, and running reverse-auction group buying.

Engine 03

Qubit Star™

Semantic talent-matching engine ("Intelligence on Tap") converting raw sparks into structured TTP packages for global specialists.

Engine 04

Qubit Link™

Cross-border 3-party simultaneous trade clearinghouse locking customs, shipping schedules, and K-SURE BNPL factoring into one transaction.

Engine 05

Qubit Flow™

24/7 autonomous B2B arbitrage engine continuously capturing risk-free price spreads (ΔP_{ij}) across global wholesale and regional retail markets.

> **12-Domain Zero-Noise Semantic Web Matrix: Across all 12 corporate domains (sistarcompany.com, qubit-algorithm, intelligence-core, scarlet-ai, qubit-biz, biz-galaxy, biz-hub, challengers, partnership, ir-pitchdeck, biz-directory, media), every page is governed by MCA (Management, Commercial, Automation) and our 100 Matrix Scale roadmap: 100 App-Flippings, 100 Brands, 100 Patents, and 100 Commercial Platforms.**

GLOBAL FOOTPRINT & REVENUE ARCHITECTURE

8 Entangled International Nodes & 11 Master Revenue Pipelines

SC Korea (SCK)

Global HQ, R&D formulation center, Global No.1 Pet Food & Medicated Shampoo ODM coordination, and K-SURE export credit hub.

SC Indonesia (SCI)

13+ years market presence. Executes Rp 50M/mo container deals across 20+ anchor accounts, GMP sachet repacking (Rp 1,320/unit), and NIE/BPOM facilitation.

SC Singapore & USA

Global quantum treasury, multilateral clearinghouse, and IATA/IADA governance (SCS); North American micro-SaaS factory, MCP monetization, and IR gateway (SCU).

SC Vietnam & India

High-velocity Indochina aquaculture and livestock biologics (aquasis/sispharm); Indian Ayurvedic raw material standardization (Indian Herbs/Vital Seeds).

SC China & Japan

Shenzhen/Shanghai Physical AI robotics ODM & 24/7 B2B price arbitrage (SCC); Forever Young Dog longevity, sismii clinical beauty, and mental wellness (SCJ).

The 4 Pillars of Our 11 Master Revenue Pipelines

Pipelines 01 – 03

Immediate Cashflow

Active Korean & global operations, municipal venture projects, cross-border raw/finished goods trading, and 24/7 AI affiliate/marketplace commerce (Prunus, Michlo, Iskhan, Dazzle, IndoHerbs).

Pipelines 04 – 06

High-Velocity Growth

Specialized AI & commercial academies (SISTAR School/Camp), subscription digital media, SISTAR Challengers platform, and physical/mental healthcare R&D solutions.

Pipelines 07 – 09

High-Multiple Intangibles

Strategic equity and digital asset management, proprietary brand incubation (NBS, Iruka, Scarlet, SISMii), and defensive patent/trademark licensing portfolios.

Pipelines 10 – 11

Ecosystem Sustainability

Co-development joint ventures (Dvmp Together), human-animal bond communities, and TTP-driven one-person AI executive management systems.

20-Track Standardized B2B Offer Sheet Engine

Ready-to-deploy proposal packages for Volume-Wise Container Deals, SISTAR SOD (Zero-Inventory Business), Offline Wholesalers, Online Resellers, Influencer Tiers I/II/III, Franchiseship (S1–S6: Salon, On/Off Shops, Clinic, Hotel, Academy, Membership), Sleeping Account Reactivation, and Overdue Collection Offset.

The Qubit Retailer Alliance (B2B2C Virtual Conglomerate)

Aggregates hundreds of independent pet shops, veterinary clinics, and local retailers into a single purchasing bloc. Powered by ML-driven 3-month Rolling Purchasing Forecasts (RPF), unlocking factory-direct container pricing, K-SURE BNPL credit lines, inter-member dead-stock swaps, and Shop Nearbuy zone delivery.

2026 DUAL-RETURN PRIORITY MATRIX & IR GATEWAY

Nine Strategic Priority Projects & Institutional Investment Thesis

Two Birds, One Stone: Internal autonomous infrastructure (Projects 01–05) built to run *sc at near-$0 fixed cost, immediately productized alongside high-margin commercial verticals (Projects 06–09).

Project 01

Qubit ERP (SISTAR ERP/SS/DT)

Zero-license AI ERP on Google Workspace with CCTV Vision Stock Opname, Space Sharing (SS), and Deliver Together (DT) zone logistics.

Project 02

Company RAG (Overnight DF)

Unmanned overnight Data Factory (10 PM–8 AM) with Dify & NotebookLM vector indexing and MCP Server agent monetization.

Project 03

Agent Builder & Ms. Scarlet

8-department autonomous workflow automation, Ms. Scarlet AI Commander, and SISTAR Studio (+10 shoppable videos/day).

Project 04

C.A.N. (CEO ActionNote AI)

Voice/memo Spark Exploder converting 1 spark into 4 execution tracks, 100-Project Master OS, and $99/$299/mo Executive SaaS.

Project 05

Exo-Brain & [& I] Wearable

Immortal corporate 2nd brain vector memory and the featherlight [& I] smart AI necklace for senior MCI/dementia care.

Project 06

ODM & Physio-Formulator R1

30L autonomous compounding robot and dual-stream Korea-Indonesia ODM quantizing sachet unit cost down to Rp 1,320.

Project 07

Mind Company & FlexKids AI

Industry-academia validated S-CTI temperament diagnostics, 4-model mental care (AiFF/NFQ), Ayurvedic NRT, and Knowledge to Flex EdTech.

Project 08

Vet Specialties & Animal Bio

CHD/SungBo/Michlo therapeutics, Scarlet AI Vet CDSS, PetCare AI smart litter box, and Zeelice livestock biosecurity container deals.

Project 09

SISTAR Challengers & Int'l

Borderless talent cloud on a 30% net profit-sharing meritocracy, SISTAR Camp AI certifications, and S1–S6 turnkey franchises.

Zero Sunk-Capex Drag & Direct Executive Contact: 100% of partner and investor capital flows directly into revenue-generating volume deals, SaaS customer acquisition, and K-SURE-backed trade factoring.
