2026 CORPORATE PROFILE & MASTER BROCHURE • VER 03

*SC - SISTAR COMPANY: One Spark, Infinite Galaxifying

Qubit Algorithm™ | Let AI Work for AI | Idea Banks, and SISTAR Makes It Happen | New Ways in Working & Doing Business | One Spark, Infinite Galaxifying

∗SC (SISTAR Company) is an AI-Native Venture Studio & Cross-Border Commerce Holding Company uniting 30 years of global trading and manufacturing execution with our proprietary enterprise AI automation engine. Fully integrating the SISTAR family groups under our unified corporate identity, **∗SC** operates as a Full-Stack AI Commerce & International AI Trading Spaceship ("One Task, Multi Outcomes").

An AI-Driven International Organization

Powered by our proprietary core business engine - the **qubit-algorithm**, forged from 30 years of hands-on international trading mastery - we pioneer entirely new paradigms in how global business is built and how the world works.

One Spark, Infinite Galaxying.

Engineered by the **qubit-algorithm**, our **∗SC intelligence-core** ignites **scarlet-ai** - the nexus where magic happens. Casting a new spell over AI commerce and automated cross-border trading, it generates **Cosmo Seed** business models: **qubit-biz**, the launchpad where your boldest ideas are realized into reality.

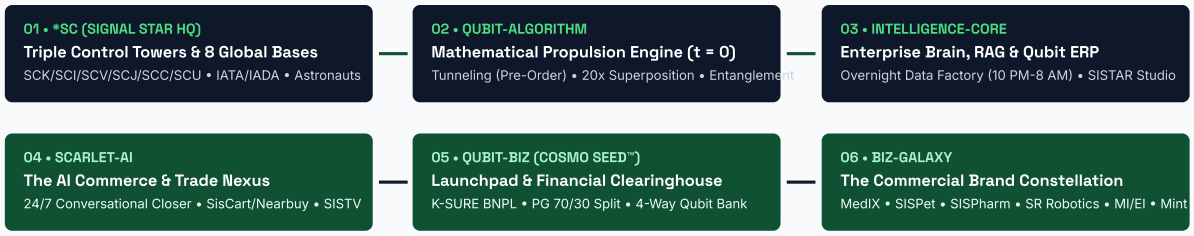

The Signal Star Universe.

Inspired by quantum mechanics, our **biz-galaxy** architecture shapes the Signal Star Universe - guided by the central **∗Signal Star (∗SC)** and illuminated by the twinkling stars of every global partner connected across our constellation.

SECTION 2 • THE 6-ENGINE CONSTELLATION ARCHITECTURE

How the *SC Constellation Works: 6 Interconnected Core Engines

Every domain within the Signal Star Universe serves a distinct architectural role, operating as a single synchronized organism from initial spark to global commercial settlement.

ENGINE 01 • CENTRAL GOVERNANCE

*SC (Signal Star HQ & Triple Control Towers)

The central command tower orchestrating 8 international bases (Korea SCK, Indonesia SCI, Vietnam SCV, Japan SCJ, China SCC, USA SCU, Singapore SCS, India SCIND), international associations (IATA & IADA), and our borderless specialist alliance (Astronauts: SISTAR Challengers Int'l).

ENGINE 02 • CORE PROPULSION

qubit-algorithm (Mathematical Propulsion Engine)

Eliminates the 60-to-90-day capital lag and dead inventory risk of linear trade (Supplier → Manufacturer → Wholesaler → Retailer). Through **Demand Tunneling** (pre-order aggregation), **20x Superposition** (multi-SKU listing expansion), and **Cross-Node Entanglement**, all stakeholders realize profit simultaneously at *t = 0*.

ENGINE 03 • ENTERPRISE BRAIN

intelligence-core (Data Factory, RAG & ERP)

Houses our unmanned **Overnight Data Factory & Enterprise RAG** (harvesting global wholesale prices, tariffs, and competitor data from 10 PM to 8 AM), our zero-license-cost **Qubit ERP** on Google Workspace, and **SISTAR Studio** (producing 10+ shoppable media assets daily).

ENGINE 04 • COMMERCE NEXUS

scarlet-ai (The AI Commerce Nexus)

Our 24/7 multilingual conversational B2B/B2C gateway (kr/ind/intl.scarlet.ai) that analyzes buyer intent in real time and routes demand directly into reverse-auction group buying (**SisCart / Nearbuy**) and shoppable video commerce (**SISTV**).

ENGINE 05 • BUSINESS LAUNCHPAD

qubit-biz (COSMO SEED™ & Clearinghouse)

The commercial launchpad combining 5 autonomous engines (Factory, Commerce, Star, Link, Flow) with K-SURE export credit guarantees (BNPL), real-time PG **Webhook Split** (70% COGS / 30% partner margin), and the cashless **4-Way Qubit Bank** (Time, Space, Idea, Petfood offsetting ledger).

ENGINE 06 • COMMERCIAL CONSTELLATION

biz-galaxy (High-Margin Vertical Brands)

The physical and digital brand constellation riding on top of our AI infrastructure: veterinary therapeutics & shampoos (**SISTAR MedIX**), pet nutrition (**SISPet**), livestock biologics (**SISPharm**), Ayurvedic herbs & clinical beauty (**SISTAR AT / SISMii**), robotics (**SISTAR SR**), mental/kids care (**SISTAR MI / EI**), and local franchises (**Mint Shop**).

SECTION 3 • INSTITUTIONAL ADVANTAGES

The 5 Corporate Signatures of *SC

Five foundational signatures define why *SC scales faster, safer, and more profitably than traditional enterprises or high-burn startups.

SIGNATURE 01

Minimal & Simple (Near-$0 Fixed Cost)

Serverless cloud automation ("Let AI Work for AI") combined with our 30% net profit-sharing talent cloud (SISTAR Challengers) drives fixed administrative overhead toward $0, converting capital directly into commercial deal velocity.

SIGNATURE 02

Zero-Inventory, Zero-Default Trade

3-Month Rolling Purchasing Forecasts (RPF), 50% advance deposits on initial 3 shipments, K-SURE credit protection, and PG-level 70/30 automated payment splitting eliminate unsold inventory and buyer default risk (0% delinquency).

SIGNATURE 03

Dual-Return (Two Birds, One Stone)

Every AI/ERP tool is built first to run *SC internally at zero license cost, then immediately productized as an external B2B SaaS or agency service — ensuring 100% of R&D cost is absorbed by internal operational savings.

SIGNATURE 04

Dual-Track Legal Firewall (SC Index)

Core holding equity and IP (**SC Index**) are legally insulated from the operational and fulfillment liabilities of individual commercial ventures (**Biz Galaxy**), reinforced by daily public Net Asset Value (NAV) auditing.

SIGNATURE 05

Hybrid Physical & Digital Moat

Unites proprietary AI software with 50 years of Korean GMP formulation heritage, 15+ years of direct Indonesian distribution (PT. SISTAR Indonesia, 300+ vet clinics), and localized Rp 1,320 single-dose sachet ODM economics.

SECTION 4 • BENCHMARKING & 2026 PRIORITY MATRIX

Global Peer Benchmarking & The 9 Dual-Return Priority Projects

Strategic Dimension	Traditional Trading & Manufacturing	Pure-Play AI SaaS Startups	Traditional Venture Studios (Rocket Internet, etc.)	*SC - SISTAR COMPANY (AI-Native Venture Studio & Trade Constellation)
Operating Architecture	Linear trade (60–90 day credit lag) & heavy inventory lockup	Software-only; lacks physical supply chain or import licenses	High fixed-payroll burn per spin-off company	**Simultaneous t=0 clearing, 12-domain AI cloud, & 30% profit-sharing talent cloud**
Manufacturing & Distribution	High MOQ friction & multi-layer middleman markups	None (requires 6–18 month enterprise sales cycles)	Must build local distribution from scratch for each venture	**50-Yr Korean GMP ODM + 30L R1 Robot + 15-Yr PT. SISTAR Indonesia (Rp 1,320 sachet)**
Risk & Return Profile	**Low operating margins (5–12%) & high buyer default exposure**	**High R&D cash burn before subscription break-even**	**Heavy reliance on continuous external VC dilution**	**Zero-Default PG Split (70/30), Legal Firewall (SC Index vs. Biz Galaxy), & Dual-Return ROI**

2026 Priority Portfolio Summary (Detailed in Founder Projects Report Ver 02)

TRACK I • AI & ENTERPRISE INFRASTRUCTURE (PROJECTS 01–05)

- **Project 01 | Qubit ERP:** Zero-license Google Workspace AI ERP + CCTV Vision Stock Opname + Shared Logistics (SISTAR SS/DT).
- **Project 02 | Company RAG:** Unmanned Overnight Data Factory (10 PM–8 AM) + Dify/NotebookLM Vector DB + MCP API monetization.
- **Project 03 | Agent Builder & Ms. Scarlet:** 24/7 multilingual B2B/B2C sales closer + Vibe Coding/Design + SISTAR Studio (+10 videos/day).
- **Project 04 | C.A.N. (CEO ActionNote AI):** 10-second voice spark to 4-Track business launcher + 100-Project Master OS ($99/$299/mo SaaS).
- **Project 05 | Exo-Brain & [& I] Wearable:** Immortal corporate 2nd Brain vector memory + Senior MCI/Dementia smart AI necklace.

TRACK II • HIGH-MARGIN COMMERCIAL VERTICALS (PROJECTS 06–09)

- **Project 06 | Smart ODM & Auto-Formulator R1:** 30L autonomous compounding robot + Dual-Stream Korea-Indonesia Rp 1,320 sachet ODM.
- **Project 07 | Mind Company & FlexKids AI:** Validated S-CTI temperament diagnostics, 24/7 AI CBT (Mind Navi/AiFF/NFQ), NRT, & EdTech.
- **Project 08 | Vet Specialties & Animal Bio-Health:** MedIX (CHD/SungBo/Michlo), Scarlet Vet CDSS, SISPet, PetCare AI Box, & Zeelice container deals.
- **Project 09 | SISTAR Challengers & Global Franchise Net:** 30% net profit-sharing talent cloud, SISTAR Camp AI Academy, & S1–S6 franchises.
