IN-DEPTH BUSINESS PLAN REPORT • PROJECTS 01 TO 09 • VER 02

*SC - FOUNDER PROJECTS: In-Depth Business Plan (01-09)

Dual-Return (Two Birds, One Stone) | Track I: 5 Autonomous AI Engines (01–05)

Track II: 4 High-Margin Commercial Verticals (06–09) | What / Why / How / Revenue & ROI

These nine priority projects do not operate in isolation; they form a single unified **Dual-Return Master Plan**. **Track I (Projects 01–05)** builds the autonomous AI, ERP, RAG, and executive operating infrastructure that runs ***SC** at near-$0 fixed cost while monetizing externally as high-margin B2B SaaS. **Track II (Projects 06–09)** rides directly on top of Track I to capture immediate B2B container cashflow, hardware leasing, clinical/school subscriptions, and global franchise royalties.

TRACK I • AI & ENTERPRISE INFRASTRUCTURE PROJECTS (01–05)

Project 01 | Qubit ERP (intelligence-core / qubit-biz)

1. WHAT IT IS

AI-Native ERP & Shared Logistics

A zero-license-cost Google Workspace AI ERP automating 8 core departments, integrated with CCTV Computer Vision stock counting (Stock Opname) and neighborhood warehouse/delivery sharing (**SISTAR SS / DT**).

2. WHY WE DO IT

Solving ERP Costs & 3PL Inefficiency

Traditional ERPs (SAP/Oracle) charge excessive per-seat fees while SMEs and veterinary clinics lose margins to manual stock errors, expiring inventory, and fragmented small-parcel shipping costs.

3. HOW IT WORKS

8-Team AI + Vision Opname + SS/DT

Automates Finance (P&L, K-SURE BNPL, KR/ID VAT harvesting), HR (25th profit-sharing payouts), Sales/CRM, and RA. CCTV + Gemini Vision counts warehouse stock in real time, while SS/DT pools idle shop storage and zone deliveries to cut shipping costs by 40%.

4. REVENUE MODEL & EXPECTED ROI

100% Internal Savings + B2B SaaS

Internal ROI: Eliminates 100% of enterprise ERP license and back-office admin payroll across 8 *SC bases.

External Revenue: Monthly B2B SaaS subscriptions (packaged with Zoho Inventory/CRM bridges) for SMEs/clinics + 10–15% shared logistics clearing fees.

Project 02 | Company RAG (intelligence-core)

1. WHAT IT IS

Overnight Data Factory & Dual Vector DB

An unmanned overnight data-harvesting refinery (10 PM–8 AM) paired with a dual-engine vector database (Google NotebookLM + Dify/Supabase pgvector) and standardized Model Context Protocol (MCP) endpoints.

2. WHY WE DO IT

Eliminating AI Hallucination in Trade

Generic LLMs fail in real cross-border commerce because they lack live wholesale pricing, Indonesian BPOM/NIE regulations, HS-code tariff updates, and proprietary corporate context.

3. HOW IT WORKS

Nightly Scraping → 8 AM Brief & MCP

Headless bots (Playwright/Apify) scrape 1688, Alibaba, Shopee, Tokopedia, and tariff rules overnight, embedding them alongside internal Google Drive/Keep memos to deliver 8:00 AM executive briefs and ground `ask_scarlet.ps1` fact-checking.

4. REVENUE MODEL & EXPECTED ROI

Turnkey RAG Builds + MCP API Fees

Internal ROI: Automated landed-cost, margin, and regulatory verification before any deal execution.

External Revenue: Custom enterprise RAG pipeline setup fees for law/tax/trading firms + automated MCP Server API and x402 micropayment tolls from external AI agents.

Project 03 | Agent Builder & Ms. Scarlet (scarlet-ai)

1. WHAT IT IS

24/7 AI Closer & Unmanned Media Studio

A multi-agent work automation suite featuring our multilingual B2B/B2C sales closer (**Ms. Scarlet**), automated Vibe Coding/Design (**SISTAR B/D & MMD**), and an unmanned media factory producing 10+ shoppable videos daily (**SISTAR Studio**).

2. WHY WE DO IT

Scaling Without Payroll Bottlenecks

Traditional international expansion requires hiring dozens of local marketers, sales reps, designers, and video editors — creating heavy fixed overhead and slow campaign turnaround.

3. HOW IT WORKS

Spell Orchestration & 20x SKU Pages

Unites Gemini 2.5, Claude Vibe Coding, and Dify 9-Center Routing. Ms. Scarlet engages buyers 24/7 on web/WhatsApp, dispatches customized Offer Sheets, and closes PG checkouts while SISTAR Studio feeds SISTV and marketplace listings.

4. REVENUE MODEL & EXPECTED ROI

Zero Marketing Payroll + AI Agency

Internal ROI: Eliminates fixed marketing, design, and inside-sales payroll across 8 countries.

External Revenue: B2B AI Automation Agency build fees + monthly retainers for clinics/SMEs + 10–15% commerce brokerage commissions.

Project 04 | C.A.N. - CEO ActionNote AI (qubit-biz)

1. WHAT IT IS

Spark Exploder & 100-Project Master OS

An executive operating system ("One Spark to Galaxify Business") that converts a founder's 10-second voice note or memo into four synchronized commercial tracks and governs 100 concurrent projects via one-touch approval (*t = 0*).

2. WHY WE DO IT

Bridging the Idea-to-Execution Gap

95% of executive business ideas die in static memo apps because translating an idea into market research, web portals, supply contracts, and team tasking takes weeks of manual coordination.

3. HOW IT WORKS

4-Track Explosion & Console Binding

Explodes 1 voice spark via Company RAG into Track A (Localized Micro-Portal), Track B (Shoppable Video & 20x Listings), Track C (3-Party ODM Contract & NIE Checklist), and Track D (E1/E2/E3 Pricing), binding tasks into the 100-Tab Master Matrix.

4. REVENUE MODEL & EXPECTED ROI

100-Project Control + Tiered SaaS

Internal ROI: Enables a single commander to govern 100+ concurrent project tracks and brands.

External Revenue: High-margin global executive SaaS on `qubit-biz` at **$99/month (Pro Tier: 10 matrices)** and **$299/month (Unicorn Tier: 100 tabs + private MCP)**.

Project 05 | Exo-Brain & [& I] Wearable (intelligence-core / biz-galaxy)

1. WHAT IT IS

Corporate 2nd Brain & Senior AI Necklace

A dual-track cognitive memory system: **Track I (Enterprise Immortal Exo-Brain)** preserving 30 years of executive trading heuristics, and **Track II ([& I] Smart AI Necklace)**, an ultra-lightweight voice pendant for senior MCI and dementia care.

2. WHY WE DO IT

Preventing IP Loss & Senior Decline

Enterprises lose critical know-how when key leaders depart, while rapidly aging societies (KR, JP, US) face a massive crisis in senior cognitive decline and caregiver shortages.

3. HOW IT WORKS

Episodic Vector Graph & Voice Biomarkers

Continuously indexes C.A.N. decision logs and trade records for 24/7 internal querying. For seniors, the [& I] pendant logs daily conversations/medications, offers gentle voice prompts, and analyzes speech cadence to alert family dashboards of early cognitive shifts.

4. REVENUE MODEL & EXPECTED ROI

Immortal IP + B2C/B2G Silver-Tech

Internal ROI: Permanently locks 30+ years of *SC trading mastery into an appreciating digital asset.

External Revenue: [& I] wearable hardware sales + monthly Family Caregiver Cloud RAG subscriptions (B2C) + municipal dementia-center supply agreements (B2G).

TRACK II • HIGH-MARGIN COMMERCIAL & PHYSICAL VERTICALS (06–09)

Project 06 | Smart ODM & Auto-Formulator R1 (biz-hub / biz-galaxy)

1. WHAT IT IS

30L Compounding Robot & Hybrid ODM

Unites our 30-liter autonomous liquid/gel compounding robot (**Physio-Formulator R1**) and modular robotics (**Robot Qubit, Lego Qubit, Aquasis**) with a Dual-Stream Korea-Indonesia GMP ODM pipeline.

2. WHY WE DO IT

Breaking MOQ & Tariff Barriers

Traditional ODM factories demand 5,000–10,000+ unit MOQs, while exporting finished liquid bottles to ASEAN incurs heavy import tariffs and freight costs that block mass-market adoption.

3. HOW IT WORKS

Stream A (KR CBU) + Stream B (Rp 1,320)

R1 compounds 30L micro-batches with zero human error. **Stream A** exports finished premium SKUs from 50-year Korean GMP factories; **Stream B** exports bulk concentrates to PT. SISTAR Indonesia for local GMP single-dose sachet repacking at **Rp 1,320 per sachet**.

4. REVENUE MODEL & EXPECTED ROI

50% COGS Cut + Co-Making ODM & HaaS

Internal ROI: Cuts proprietary brand COGS by 50% and eliminates MOQ lockup (>45% gross margin floor).

External Revenue: Co-Making ODM contract manufacturing ("First 3 Shipments 50% Deal") + Hardware-as-a-Service (HaaS) leasing of R1 robots and consumable cartridges to vet hospitals and pharmacies.

Project 07 | Mind Company & FlexKids AI (biz-galaxy)

1. WHAT IT IS

S-CTI Diagnostics, AI CBT & Kids EdTech

A full-lifecycle mental wellness and youth education platform featuring university-validated temperament diagnostics (**S-CTI**), 24/7 AI psychological care (**Mind Navi, AiFF, NFQ**), Ayurvedic detox/NRT, and **FlexKids AI ("Knowledge to Flex")**.

2. WHY WE DO IT

Accessible Mental Care & AI Literacy

Urban burnout, anxiety, and youth developmental stress are surging, yet psychiatric clinics remain expensive and stigmatized, and schools lack scalable emotional-care and AI-era creative curriculums.

3. HOW IT WORKS

4-Model B2G / B2B / B2C Deployment

Maps user inputs to certified scales (S-CTI, PHQ-9, GAD-7) across 4 models: Model A (School Student Dashboards & Parent App), Model B/C (Senior & Clinic Monitoring), and Model D (Corporate HR Employee Assistance Program - EAP).

4. REVENUE MODEL & EXPECTED ROI

Recurring SaaS + Ayurvedic Cross-Sells

Internal ROI: Temperament matching and daily upskilling (+10 curriculum updates/day) for *SC Challengers.
External Revenue: Monthly subscriptions from schools/education boards (B2G), corporate HR (B2B EAP), and parents (B2C) + automated in-app cross-selling of **SISTAR AT** Ayurvedic herbal adaptogens and NRT kits.

Project 08 | Vet Specialties & Animal Bio-Health (biz-galaxy / scarlet-ai)

1. WHAT IT IS

4-Vertical Animal Bio-Health Anchor

Our fastest-moving cashflow anchor uniting **SISTAR MedIX** (prescription vet shampoos: CHD, SungBo, Michlo & Scarlet Vet CDSS), **SISPet** (Iskhan, Dazzle nutrition), **SISTAR Dx** (PetCare AI smart cat litter box & POCT), and **SISPharm** (Zeelice poultry biosecurity).

2. WHY WE DO IT

High ASEAN Clinical & Farm Demand

Humid Southeast Asian markets face chronic pet skin diseases and severe poultry red-mite infestations, while local vet clinics and farms urgently need proven, cost-effective Korean clinical formulations.

3. HOW IT WORKS

Vet CDSS Triage + Container Volume Deals

Scarlet Vet CDSS analyzes lesion photos to prescribe MedIX SKUs. In Indonesia and Vietnam, *SC executes container volume deals across 20 regional anchor partners alongside 20x Shopee/Tokopedia superposition listings and PetFood Bank Re:D clearance.

4. REVENUE MODEL & EXPECTED ROI

20 Partners × Rp 50M/Mo Volume Deals

Immediate Cashflow: Baseline B2B container deals of **Rp 50M/month across 20 regional wholesale/clinic partners (= Rp 1 Billion /mo per wave)** secured by 50% advance deposits ("First 3 Shipments 50% Deal") + high-margin D2C e-commerce bundles.

Project 09 | SISTAR Challengers & Global Franchise Network (challengers / sistar intl)

1. WHAT IT IS

30% Profit-Sharing Cloud & S1–S6 Nodes

A borderless talent alliance (**SISTAR Challengers**) compensated via a 30% net profit-sharing meritocracy, paired with our job-guaranteeing AI Academy (**SISTAR Camp**) and 6-format turnkey local franchises (**S1–S6**).

2. WHY WE DO IT

Zero Payroll Burn & Zero-Capex Retail

Eliminates the 70%+ fixed salary burn that kills traditional startups, while allowing local entrepreneurs to launch profitable pet/lifestyle businesses without heavy franchise entry fees.

3. HOW IT WORKS

Group I–V Meritocracy + S1–S6 Formats

Allocates 30% of net project profit across Group I (35%), II (25%), III (15%), IV (10%), and V (5%) with a 10% individual cap (paid on the 25th via Workspace Console). Deploys S1 Salon, S2 Mint Shop, S3 Clinic, S4 Hotel, S5 Academy, and S6 Rooftop nodes under "Zero Cost, Double Income."

4. REVENUE MODEL & EXPECTED ROI

0% Fixed Payroll Risk + Franchise Supply

Internal ROI: Fixed labor cost risk drops to 0%; compensation scales strictly with realized profit.

External Revenue: AI Academy certification tuition + exclusive wholesale product supply (Iruka, MedIX, SISPet) and revenue-sharing royalties across all S1–S6 partner franchises.

EXECUTIVE SUMMARY MATRIX • PROJECTS 01 TO 09

Consolidated Business Plan Matrix: What, How & Expected Revenue Streams

Project & Domain	Core Solution (What & How)	Internal Return (Cost/Risk Saved)	External Revenue Stream (Monetization)
01 | Qubit ERP (intelligence-core / qubit-biz)	Workspace 8-Team AI ERP + CCTV Vision Stock Opname + SS/DT Shared Logistics	100% ERP license & back-office admin payroll elimination; 40% logistics cost cut	B2B ERP SaaS subscriptions for SMEs/clinics + shared warehouse/delivery clearing fees
02 | Company RAG (intelligence-core)	Overnight Data Factory (10 PM–8 AM) + Dify/NotebookLM Dual Vector DB	Automated landed-cost, tariff, & BPOM/NIE regulatory verification	Custom enterprise RAG build fees + MCP Server API & x402 query micropayments
03 | Agent Builder (scarlet-ai)	Ms. Scarlet 24/7 AI Closer + Vibe Coding/Design + SISTAR Studio (+10 videos/day)	Eliminates fixed marketing, design, & sales headcount across 8 countries	B2B AI Automation Agency setup fees + monthly retainers + commerce brokerage fees
04 | C.A.N. ActionNote (qubit-biz)	10s Voice Spark to 4-Track Launcher + 100-Project Master OS (t=0 collapse)	Single-commander orchestration of 100+ concurrent project tracks & brands	Global Executive SaaS: **$99/mo (Pro)** & **$299/mo (Unicorn Enterprise)**
05 | Exo-Brain & [& I] (intelligence-core / biz-galaxy)	Corporate 2nd Brain Vector Memory + [& I] Senior MCI/Dementia AI Necklace	Permanent retention of 30-year founder trading heuristics & institutional IP	[& I] wearable hardware sales + Family Care Cloud SaaS (B2C) + Municipal Welfare (B2G)

Project & Domain	Core Solution (What & How)	Internal Return (Cost/Risk Saved)	External Revenue Stream (Monetization)
06 | Smart ODM & R1 (biz-hub / biz-galaxy)	30L Physio-Formulator R1 Robot + Stream A (KR CBU) & Stream B (Rp 1,320 Sachet)	50% COGS reduction on own brands + zero MOQ inventory lockup (>45% GM)	Co-Making ODM volume deals + R1 Robot HaaS leasing & raw-material cartridge sales
07 | Mind & FlexKids (biz-galaxy)	Validated S-CTI Diagnostics + Mind Navi/AiFF/NFQ + NRT + FlexKids EdTech	Challenger temperament matching & daily AI curriculum upskilling (+10/day)	School/Education Board (B2G), Corporate EAP (B2B), & Parent App SaaS + Herbal/NRT sales
08 | Vet Specialties (biz-galaxy / scarlet-ai)	**MedIX (CHD/SungBo/Michlo), Scarlet Vet CDSS, SISPet, PetCare AI, & Zeelice**	**Diagnostic data flywheel feeding exact next-quarter ODM production volumes**	**20 Regional Partners × Rp 50M/mo Container Deals (50% advance deposit) + 20x D2C**
09 | Challengers Int'l (challengers / sistar intl)	30% Net Profit-Sharing Talent Cloud (Groups I–V) + SISTAR Camp + S1–S6 Franchises	0% fixed payroll burn; labor cost scales strictly with realized net profit	AI Academy tuition + exclusive product supply & royalties across S1–S6 franchises

Partner & Investor Onboarding Channels:

• **Track 1 — Strategic Capital Allocation (SC Index & Biz Galaxy):** Participate at the holding index level or co-fund container volume deals and SaaS rollouts with daily NAV visibility, K-SURE credit protection, and PG 70/30 auto-split security.

• **Track 2 — Commercial & Regional JV Partnership:** Plug your manufacturing, clinical, or distribution network directly into our 8 international bases.
